

Where It All Starts

Thievery Corporation

Oh ohBright as the stars
Your eyes unfold
Do you ever wonder
Where it all starts?Believing we're the cloud
Swimming a path
Watching afarBright as the stars
You're eyes unfold
Do you ever wonder
When do we start?Believing the rain will come
Another night
Another dayEverywhere we look
Clouds are moving faster and
See it upSlowly holding on
Colors fill your light
Voices singing our song
Voices singing alongHere we are standing tall
Waiting and hoping
See the lights shine
Opening over the waterAnother day goes by
The love in your eyes
So patiently
To see the sky open wideAnother day
People walking by

Songwriters
