

# Alone

## Badlands

Seeing people all around me with their high class careers  
Does it make em' feel happy, won't it cause any tears  
Want to sit here in my room and do nothing at all  
No I don't want to answer to society's call I want to be a kid forever, no responsibilities  
I want to be a kid forever, aged 10 when I freeze Seeing couples on the streets walking kindly hand in hand  
Happily married, this I can't understand  
Rather be all alone on an island far away  
Never think about tomorrow, I'm just gonna seize the day Don't wanna understand the world, there's way too  
much hate  
Don't wanna go to school to learn, they'll decide your fate  
Don't wanna change the earth,  
just let me be I wanna be a kid forever, honest and free
