Passenger Seat

Bodebrixen

Swang down and ride with me yeah
Swang down and ride with me yeah
[Chorus]As I slide through on foes you know that the baddest women wanna get chose
I got em talkin bout swing down sweet chariot let me ride
hop into my passenger side.
As I slide through on foes you know that the baddest women wanna get chose
Talking about swing down so gone let me show you
how we do it on that south side
[Verse 1 Chamillionaire]Let's give a toast to all these losers that cuff broads
without Charlie there wouldn't even be none of us dog
I'm always fresh aint ever nothing to dust off
So much good game in my brain, they're thinking this must cost
don't trust talk you silly rabbit, thought that I would give her carrots and cabbage but no I haven't
chasing the same chicks like there aint no mo on the planet,
act like you wasn't with it like Justin after that Janet..incident
I'm convinced that theres plenty of little sensitive rappers really actors,
Numbers is probably infinite
Thought that I shouldn't mention it after gettin all intimate
You hear I'm talking in person like It's a pimpin skit
They're serenading in this rap game G, they package it and calling it a pimpin'
what this crap aint free?
You're chasing groupies buying em gucci haha that cant be
I'm living just like Tom and Jerry 'cause the cat chase me
[Chorus]As I slide through on foes you know that the baddest women wanna get chose
I got em talkin bout swing down sweet chariot let me ride
hop into my passenger side.
As I slide through on foes you know that the baddest women wanna get chose
Talking about swing down so gone let me show you
how we do it on that south side
[Verse 2 Short Dawg]Shawty wanna ride ride with me, young buck
she see me coming down swanging like nun chuks
Them texas plates will make a sexy face bum rush
Stacks on deck pockets lookin like Sun Trust
I chunks up the south side when i pass
84 glass cops out they harass
(With My) Mug on mean glocks off in the stash

(and the) slab so clean, tops off and all that jazz
and i'm getting to the money, 50s, 20s, 100s

don't worry about how nigga just know just know that it's coming
These rappers getting punished 'cause I spit fire on the road to the riches passin by you hitch hikers
Tell my niggas when I make then we can all ball
So i'm gonna grind till my money tall as Paul Gasol
I'm respected like a rabi
Young but I'm mad fly
plus i got em starring like a glass eye, as I..
[Chorus]As I slide through on foes you know that the baddest women wanna get chose
I got em talkin bout swing down sweet chariot let me ride
hop into my passenger side.
As I slide through on foes you know that the baddest women wanna get chose
Talking about swing down so gone let me show you
how we do it on that south side
[Verse 3 Chamillionaire]I'm yelling hey miss Parker we both should take a ride in my Charger
I hope that you won't pass up this offer girl
'cause you know I drop you back off tomorrow.
I'm yelling hey miss Parker just walk up to my car when I call ya
I got to let you know that you're gorgeous girl
And you know that I wanna really know you.
So I'm yelling hey, hey
You're frontin like I ain't the biggest business
(You) better do more than dishes, (You) better have more than just Pennies
I've been a rebel I told you these corporate losers can't deal with me
Get old, We're gonna live like the Beverely Trillbillies
The real deally careful when seatin em cause now a days their shirt and their back be filled with helium
Wont deduct no points if your shirt is a extra medium
But if you super sizing the truth, then i'm probably eatin in
The dash is digital, the diamonds are individuals
What i'm here to do is to give your woman a physical
I'm the one who she givin it to, This point in her life is pivotal
Could be the last time the that she ever see an invisible
Poof! Haha, i'm such a dog
[Chorus]As I slide through on foes you know that the baddest women wanna get chose
I got em talkin bout swing down sweet chariot let me ride
hop into my passenger side.
As I slide through on foes you know that the baddest women wanna get chose
Talking about swing down and ride with me, In My Passenger Seat
