

Motorcycle

Love and Rockets

Me and the motorcycle
Me and the motorbike We just running around
My feet are off the ground
She's not gonna let me down
She's not gonna let me down Me and this motorcycle
Me and this motorbike You don't go too fast
You just set me free
You don't go too fast
Set me out, set me out Motorcycle
We are free I feel warm inside
On the motorbike
The wind is all around
On the motorbike, we are free The motorcycle and me
The motorcycle and me
The motorcycle and me
