

# Push Up

## Fire Foxx L.o.s

Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
This aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
Cuz this aint about KJ this about you  
They said why's this kid on the mic man  
He's from Florida he's Christian and he's white man  
They said there was nothing in my life man  
That I could ever offer except Christ, man  
He said now give me everything you got  
Ill take that little bit and turn it to a lot  
I don't care what they say or even what they thought  
I can make a way even when they say there's not  
But they said just for me to give up now  
They said that I'm a be messed up now  
They said there's no way to get love  
I was better to drop out or just sell drugs  
But he said I got a much better way  
If I'd let him in and just let him change  
If he got a chance He would take away  
Everything from the past so I wanna say is...  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
This aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
Cuz this aint about KJ this about you  
They said I had no flow and no show  
And no dough it was all no go  
All I heard was no no and woah woah  
You'll never be nothing man ya need to go home  
But he said I got a habit of taking  
The least likely and then doing something amazing  
And right at the point when he just came in

That's exactly what he did and I aint been the same since  
They said now your poor white trash  
With a broken home and a broken past  
There's no way that your ever gonna last  
Even if u did it and you make it then you'll fall apart fast  
But he said that I can do anything  
Ill take you places that your eyes never seen  
Anything you face anything u need  
I got it covered if you'll just trust in me

Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
This aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
Cuz this aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
This aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
Cuz this aint about KJ this about you  
Now you can just listen to  
And follow after them and everything they do  
You can just play the fool  
And pay attention to what they telling you  
Or you can hear what God is saying  
Take a look around you can see God changing  
Me from the inside out I'm not the same and  
I hope it's convincing now I think its so amazing  
They'll say that's not possible  
They'll get mad and act all hostile  
They don't want nothing to do just with the gospel  
But that don't mean you gotta let it stop y'all  
They call me 5 2 for the reason  
The little that I had it was all he was needing  
Five loaves and two fishes he was feeding  
10000 you finally get the meaning?  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2

This aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
Cuz this aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
This aint about me this about you  
Push up a five push up a 2  
Push em up high this is what you do  
Push up a five push up a 2  
Cuz this aint about KJ this about you
