

Fairy Tale

Toni Braxton

And if I was wrong, I know I don't deserve this
Don't stay too long, I need to hear those words you used to tell me
From way back when we were just friends
Before this love affair began Tell me how "I love you" wins or how a broken heart can mend?
Just tell me this is not the end, please tell me now
How the fairy tale begins or how it was supposed to end?
Please tell me that part again
Tell me now, yeah, tell me now, yeah, tell me now Now tell me what's wrong, I never meant to hurt you, no baby
Was it the home, the car, or darling all those things
We thought we needed? Tell me even if it ain't true
But, baby, please don't say we're through, no, no Tell me how "I love you" wins or how a broken heart can
mend?
Just tell me this is not the end, please tell me now, tell me now baby
How the fairy tale begins or how it was supposed to end?
Please tell me that part again
Tell me now, yeah, tell me now, yeah, tell me now I wanna know that feelin' that's from way back
Time when it was true that, love was sweet and innocent
When you and I could still be friends make all the wrong be right again
Where true love never has to end, tell me how? Tell me how "I love you" wins or how a broken heart can mend?
Just tell me this is not the end, please tell me now, tell me now baby
How the fairy tale begins or how it was supposed to end?
Please tell me that part again, ooh baby
