

Near Fantastica

Matthew Good

The pink pills are for your sanity
The pink pills are for your sanity
We are buried in the Earth because we can't beat gravity
You are still here and so made to figure
You are an important part of the computerBorn of the sea, blink, the sea is dead
Falls out of me, these sockets in my head
Everyone's a captain, baby, ship of fools
Drowning while they're telling youIt's been alright
It's been alright
It's been alright
It's been alrightDream the dream of your attrition
The nameless name of your condition
It will be needing you a little while longer
You are an important part of the computerAnd after this mission it will let you go
Help you to forget everything and everyone you know
In a world of captains, baby, ship of fools
Don't you know they're lying when they're telling youIt's been alright
It's been alright
It's been alright
It's been alrightCan't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killerCan't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killerCan't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killerCan't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killer
Can't fear fear, fear is the mind killerIt's been alright
It's been alright
It's been alright
It's been alright
It's been alright
It's been alright
It's been alright
