

# What

## Hansol, Beller

Within this hour he'll be higher  
Maybe more than he has ever been  
    Won't be his last time  
    He lights the fire to pretend  
This is something that will never end  
    Too tired to wait for tomorrow  
        What?  
        What takes him away?  
        Gives him breath to say  
        What?  
        Not a thing  
Just a lesson for another day  
        What?  
        What takes him away?  
        Gives him breath to say  
        What?  
        Not a thing  
Just a lesson for another day  
He hides in shadows from his silence  
    In the dark he fools himself again  
    Won't be his last time  
He faces nothing that's his comfort in a place  
    That he has always been  
When he comes down he can't remember  
        What?  
        What takes him away?  
        Gives him breath to say  
        What?  
        Not a thing  
Just a lesson for another day  
        What?  
        What takes him away?  
        Gives him breath to say  
        What?  
        Not a thing  
Just a lesson for another day  
        Say when  
        Say when  
        Say when

Say when  
    Say when  
    Say when  
        Time  
    He wants some  
        Time  
    He needs some  
        Time  
        What?  
    What takes him away?  
    Gives him breath to say  
        What?  
        Not a thing  
    Just a lesson for another day  
        What?  
    What takes him away?  
    Gives him breath to say  
        What?  
        Not a thing  
    Just a lesson for another day
