FireStarter

[Stars In Stereo](#)

You tell me I'm a firestarter
But you don't see that it's getting gdarker
It's easier to be the one insane
While you sit back and feed the flames
You can't put me out before I say
Listen when you hear me
Listen cause we're burning
Listen when you hear me
Listen
Listen
Look at me
I'm a firestarter
The worst I've done was for the better
I would rather be the one to blame
than bite me tounge and fall again
You're never gonna put me out before I say
Listen when you hear me
Listen cause we're burning
Listen when you hear me
Listen
Listen
I'm a firestarter
You can't put me out
Listen when you hear me
Listen cause we're burning
Listen when you hear me
Listen
Listen
