

Lonely as America

Cerebral Ballzy

No one has seen this love again
Faced with another dead end
One day I'll see light raise again.
In the end...Making a living with guttery ends
And you fight with the lies of consequence
How much money do we owe to this end
We all must come to an end
Played it in the time
That look in your eyes
Heroes undefined
Never mind it's mine, all mine
It's mine all mine
Played it in the time
The way I feel inside
Will they realise?
We tried and tried and tried and tried and tried
No one will believe whats told again
It gets so old to pretend
One day I'll have my place again
Theres no end
Making a living with guttery ends
And you fight with the lies of consequence
How much money do we owe to this end
We all must come to an end
Played it in the time
That look in your eyes
Heroes undefined
Never mind it's mine, all mine
It's mine all mine
Played it in the time
The way I feel inside
Will they realise?
We tried and tried and tried and tried and tried
Making a living with guttery ends
And you fight with the lies of consequence
How much money do we owe to this end
We all must come to an end
