

Head

Cities Aviv

Breathe into you just to give you life
Free you from this world, let me show you right
Shackles of the city, leave it all behind
Is it worth the fight? Guess I'd rather fly
Overnight and I'm out, you can pay respects to my hologram
Let's run away, stay fucked up, can't find me, don't give a damn
Best believe I ain't coming back to defend this attack
You know I'm' [?] that's where it's at
Skyway, outer space, never coming down
Surfing on the surface but we never touch the ground
Netscape, navigate, never turning back
Surfing on the surface but we never through the cracks
I go to sleep, I'm talking in my dreams
Forget these endings, don't know what it means
I guess the answer's still a part of me
Out of my head
Go, go
Out of my head
Go
