

World War III

Bad Religion

US government blew its plan
Too much money down the can
Look and listen to what the president says
"The first lady's a fuckin' lez"
They think they know it all
America, China's about to fall
Lethargic ism will overrule
US government's wading pool one dayWorld war III
World war III
World war III
World war IIIForget it came from president's door
I'll make us have another world war
It don't matter what the people think
We save our precious brink
Here I go, I'll push the bomb
It's headed straight for Guam
And rest will release soon
Into your living room one dayWorld war III
World war III
World war III
World war III
