

# Light (Instrumental)

## Periphery

In sunshine's view  
The absence of love  
Behold what's blinding you  
Serpent or dove  
Between uncertainty  
Tethered wings and captive dreams aren't worth the suffering  
Open your eyes  
Devotion deprived  
Deny the very thing that accepted this life is about  
Listen to my words  
Defy devotion  
Sick from the fall behind the wall  
So I demand of you stand up and see  
Before they saw what I was becoming  
Before it kept me from reaching...The light  
Can't seem to understand it  
Can't seem to know  
Listen to the vacant soul  
The child has lost his way  
Tension  
Suffering the hole  
Something against me  
I won't try  
Never again  
I will not remember  
Between the lines I sing with doubt  
Behind this will fall  
Lost in night and day  
Breathing for me  
Listen to the way I enter the world  
In time this lie will become me  
The things I've done to forget my dying senses  
Weary from this act alone  
In vain six days away  
Return from the fall  
Just find a ray of light to help me ascend  
That is the only way
