The Water

Spock's Beard

I. introduction/the water
i am the water
i am the ocean king
i own the red sky
i am the one who makes...
dreams....
real
II. when it all goes to hell
there you are
it's soft and it's red
floating free
in your own private bed
then one day
you're pushed down the well
and you can feel your funny bone crack
when it all goes to hell
you come into
a world cold and bright
and after a while
it all seems alright
you dance and play
but it's too soon to tell
that you'll find yourself scathed and attacked
when it all goes to hell
when it all goes to hell
and you don't even try to get up
when it all goes to hell
III. a thief in the night
i was a general
of darkness and light
i was to be the major man
it was some kind of sight
i was going to stand alone
and do what was right
now i'm just another stepping stone
a thief in the night
so where were all of those
angels and priest
who said they'd carry me

beyond my beliefs
where are all of them now
they're gone from my sight
my mother and father deserted me
like thieves in the night
yes, where are all of them now
they're gone from my sight
my mother and father deserted me
like thieves in the night
i was the water
i was the ocean king
i ruled the red sky
i could do anything
'till you, you
you messed me up
you, you
you all messed me up
IV. FU/i'm sorry
you gave me this home and then you left me alone
FUCK YOU
you act real nice while you're exacting your price
FUCK YOU
everyone's got their opinions
they'll tell ya 'bout 'em all the time
what makes 'em think i wanna hear them
i wish that you'd all fucking die, die, DIE!
you don't give a shit about anything
FUCK YOU
i don't know why you even bother to live
FUCK YOU
everyone's so pathetic
always talking all the time
what makes them think that
i give half a shit what's on their minds, minds, MINDS!
FUCK YOU
(if the truth were told i really hate myself so)
FUCK YOU
FUCK YOU
FUCK YOU
FUCK YOU!
i'm so sorry
i really am so, so sorry
if i ever hurt you or caused you pain
i can't help it
i really, really just can't help it

when the madman's on the rise again
can you understand what it's like?
you all must understand what it's like
i can't help what happened to me
sometimes it just comes out now can't you see
please understand and don't
don't hate me
i'm so sorry
i really am so, so sorry
if i ever hurt you or caused you pain
if you don't understand it's all the same
i guess i'll just be left alone again.....
V. the water (revisited)
i am the water
i am the ocean king
i own the red sky
i am the one who makes....
you.....
feel
VI. runnin' the race
mocks and spots
rip up your face
but all that counts
is that you get to first base
tension mounts
then it's put in it's place
and you're finally having some fun
when you're runnin' the race
chinatown
is off to your left
the motor pool
is there on the right
tension in dot matrix
right in your face
and you're finally having some fun
while you're runnin' the race
and you're finally having some fun
while you're runnin' the race
runnin' the race
runnin' the race
VII. reach for the sky
after we've gone
after the moon rises
and the red flags fly
gonna reach for the sky

gonna hold my head up high
gonna reach for the sky
storm ragin'
that'll be alright
if we reach for the sky
yeah we reach for the sky
guess there never was....
a winner
just a race against time
i was mean - i was kind
even though i was blind
i still reached for the sky
storm ragin'
that'll be alright
if we reach for the sky
yeah we reach for the sky
come people
reach for the sky.....
