

Jabberstroker

Guided By Voices

Cling to the sides, brain-boy
We lost our number selves in jail
Leaving a groovy wit matter on a sailing sky
Alive and jabberstrokingSinking around you now
Around you now, around you
Sinking around you now
Around you now, around you nowWings are wise, lame-boy
Louder people build a fighting bore
Dig the fast track, fucker
Ancestral public, dig the fast trackHe's the one with the talkin' rock-bull
Clings to edge of the pool, Greg Case
Examine number one at cause and at manners
Bounded to protect a fighting bullyGo around you now
Around you now, around you
Sinking full, around you now
Around you now, aroundOn a silent sky
Alive and jabberstroking
Think of a wide lane, boyPromise you will go and fight
Dig the fast track, fucker
Access to the privileges
Dig the fast track, fuckerDig the fast track, fucker
Dig the fast track for her
Dig the fast trip, dig the fast track
