

Shoot the Moon

Voodoo Glow Skulls

Advisory - the following lyrics contain explicit language:

i can't stand all this common shit- life's too fast for me- everyone's trying so hard to impress- what is the real meaning of humanity- morals and values are based upon- your style of dress- money in your pocket will become chump change- if we don't make any progress- success and fitness are the trend of today- infomercials keep us all in touch with modern technology- let's shoot the moon! soon you will be shopping- without leaving your front fucking door- the cost of living is never going away- jobs are fading and poverty is on the rise
