

# Madhouse

## WaveGroup Sound

Welcome... to the Madhouse...  
Here ghost wail and moan  
Skeletons rattle trying to escape there prisoning coffins (Wicked Shit)  
Grimlins and skulls gasp a death (ICP Tech N9ne)  
You have entered the Mad House  
Somboddy open the fuckin door and let me in!  
The worlds are about to get me again  
Shit aint pretend im safer in the madhouse  
Clinging to the selene like a spider  
Im out of your mind like frozen fire  
Razorblade fingers scratchin my neck  
Lost in the maze i found a dragon barbeque in the back  
A arm came out of the toilet and squaws my balls  
That shirt hurt got me head but holes in the walls  
I wanna see you!  
I hear you!  
I catch spirits and ghosts by there invisible throats and then tear through (tear through)  
Never scary boo bitch im a kamikaze  
Swimmin through the living room watching joni and chachi  
And then i realize im potsy trapped in the tv  
Somboddy changed the channel and got the better of me  
Your aint never gettin in and we aint never gettin out  
Cause I hold the key to unlock this madhouse!  
It dont matter where you run to scream or shout  
Cause I hold the key to unlock this madhouse!  
Your aint never gettin in and we aint never gettin out  
Cause I hold the key to unlock this madhouse!  
It dont matter where you run to scream or shout  
Cause I hold the key to unlock this madhouse!  
So many dimensions and lines except for these levels of dips and devil  
Aint been alright sense the ghetto better wait for my temper settle  
Cause my mind is a madhouse the n9ne fittin spaz out  
Player haters dont throw stones if you grind in a glass house  
Sometimes when i lash out i pass out how sick and insanse and vain can this be  
Wanna fly your little head like a frisbee six six triple eight forty six ninede nine thrisde  
This strange and psychopathic homie this is not disney  
The madhouse continues to pin you send you psycho bitches to the back of the venue  
Then you slither when like when im here in you or off in you

Then my homies 2 dope and Jay do you up somthin real ???

Tryin to be sneaky creeping behind me mutha fucka i saw that rail

Alot of mother fucker claim the insanity plead but not me

Its this house thats gone mad im insane as can be!

Cause I hold the key to unlock this madhouse!

It dont matter where you run to scream or shout

Cause I hold the key to unlock this madhouse!

Mad...House... Mad House

It dont matter where you run to scream or shout

Cause I hold the key to unlock this madhouse! (Let me out the Madhouse)
