# World of Difference

## Gov't Mule

Black and white, it's all the same
Good and evil, pieces in a medieval game
Black shoot black, white take all
Color will be our downfall
Blood runs red
And it's all the sameSo tell me what you see
When you look at me
Close your eyes, you'll see
A world of difference
World of differenceI hate you 'cause you hated my fathers
You hate him, his fathers raped your daughters
Hate breeds fear, fear breeds sin
Survival is your only friend
When we die
We're all the sameSo tell me what you see
When you look at me
Close your eyes, you'll see
A world of difference
World of differenceThere's a clock on the wall
And it's angry and bleeding
A world in pain
Lashes out like children
What can we do?
We're too young to knowBrother, get down on your knees
Too late to cry, too late to beg me pleaseSo, tell me what you see
When you look at me
Close your eyes, you'll see
A world of difference
World of difference
