Coming Or Going

White Arrows

I met you in a real dark place
But I still don't know If your coming or going
I took you outside and we went to your place
But I still don't know If your coming or going
It was a goo good jam and it came from when I wake up everyday
Just a memory
I don't know If your coming or going
I don't even care If I see your face again
She walked me to the other side of town
I never understood what she said
I wanna take you to the end
I never want to hear
I don't know if shes coming or going
I can't see what my eyes don't see
I feel like saying if your coming or going
Well you just go head I don't need to see you again
I couldn't tell if your coming or going
I can't tell where you been and I don't know what I'm saying
Anyway
I can't tell if she's coming or going
My eyes can't see what my eye don't see
She walked me to the other side of town
I never understood what she said
I'm going to take you to the end
I never want to hear
Leave me to the waters edge
Break side to my little broken lid
Put your lips
Breathe it in is what she said
Never gonna close my eyes again
Never gonna
