Sun 4 The World

Helloween

Forty million years ago
There was a boy called Leif
His skin was gray, his eyes were red
The tentacles counted fiveGrown up in a normal house
His parents beloved son
There never was the slightest sign
He'd be the chosen oneLeif
(No)
Help us
(No)
Shelter usHe turns into the sun 4 the world
Sun 4 the world
What would I say
(What would I say)
Would it be me, my friendDown on Earth, we see a star
Dying in it's light
Then suddenly it all explodes
A new sun shines with LeifLeif
(No)
Help us
(No)
Shelter usHe turns into the sun 4 the world
Sun 4 the world
What would I say
(What would I say)
Would it be meSun 4 the world
Sun 4 the world
What would you do
(What would you do)
Would it be you, my friendLeif, help us
Shelter usHe turns into the sun 4 the world
Sun 4 the world
What would I say
(What would I say)
Would it be meSun 4 the world
Sun 4 the world
What would you do
(What would you do)
Would it be you, my friend
