

# Sun 4 The World

## Halloween

Forty million years ago  
There was a boy called Leif  
His skin was gray, his eyes were red  
The tentacles counted five Grown up in a normal house  
His parents beloved son  
There never was the slightest sign  
He'd be the chosen one Leif

(No)

Help us

(No)

Shelter us He turns into the sun 4 the world  
Sun 4 the world  
What would I say  
(What would I say)  
Would it be me, my friend Down on Earth, we see a star  
Dying in it's light  
Then suddenly it all explodes  
A new sun shines with Leif Leif

(No)

Help us

(No)

Shelter us He turns into the sun 4 the world  
Sun 4 the world  
What would I say  
(What would I say)  
Would it be me Sun 4 the world  
Sun 4 the world  
What would you do  
(What would you do)

Would it be you, my friend Leif, help us  
Shelter us He turns into the sun 4 the world  
Sun 4 the world  
What would I say  
(What would I say)  
Would it be me Sun 4 the world  
Sun 4 the world  
What would you do  
(What would you do)  
Would it be you, my friend
