The Giantess

Bombay Bicycle Club

Once is better than a life-time
Once is better than whole long side
When you catch it in the all bold life
He can get it in the after
He can hold it in the older while

When the back of her, your so damn worked-overWhere's the lightning

Now

Where's your finger's

Now

He can taste it

Now

Come and get it

NowOnce is better than a life-time Once is better than whole long side

When you catch it in the all bold life

He can get it in the after

He can hold it in the older while

When the back of her, your so damn worked-overWhere's the lightning

Now

Where's your finger's

Now

He can taste it

Now

Come and get it

Now
