Baby I love you
And baby I need you
To take my dying pain?.Thinking about my baby girl
In this crazy world
And where would I be
If I didn't have her
And she didn't have me
Hey lady, my babyUnderstand that I can't be without you
And I can't think without you
Can't even fall asleep without you
I always think about you
And aint nobody that could ever take your place
Every day from the time I wake girl
I can't wait to see your face
Just in case you didn't know
I'm gonna lay it on the line
Loved you with my heart and soul
Like like time after time
Everything's fine when you're around
But when you gone it get so lonely
You're my lover and my friend, girl you my homie
My one and only
Always and forever
My little shawty
Nothing could be better
They think I won't make it through one of these days that filled with pain
Understand when I suck at the game
There'll be no more[Chorus:]
I'm never gonna let you go
I need you in my life girl
I need you by my side girl
I love you with my heart and soul
I need you by my side girl
I need you in my life girlNow here's the story of my beautiful Cambodian queen
The girl of my dreams
I remember when we met in our teens
You was so classy when I saw you at the local arcade
Still so lovely after you had the baby we made
I thank you today, tomorrow, always and forever

Because this rhyme that will honor such a beautiful endeavor
Never worry because I will always be there for you
And have my heart melt when you say you love me too
I love you boo because you stepped through
And you never gave up
And when my child was sick at night you would always stay up
And I swear it on my life that I tried to be a better man
Yet you have to understand I'm doing all that I can
You are my lover and friend
Soul mate and everything
That's why on your left hand yous got my diamond ring
Impatient with our relations but now I'm coming to
Listen to the words I'm saying because I'm so in love with youBaby I love you
And baby I need you
To take my dying pain
And baby I want to
Do what you want me to
Don't ever go awayI'm never gonna let you go
I need you in my life girl
I need you by my side girl
I love you with my heart and soul
I need you by my side girl
I need you in my life girlLove is like the wind you cant see it but feel it
And when you catch its curse then its harder to conceal it
Let it flow
Let it go
Let it leak out your chest
When it stops we never know lets always be at our best
Those three little words mean more than flowers or candy
And we touch, every breath you make me feel so outstanding
Cloud 9 aint even close to what I feel everyday
Man I need you in my life because I can't live without my baby!Where would I be without my sunshine
Probably I be caught up with them one times
And sometimes even though you act craaazy
I thank the lord for my lady
You my baby
Hey hey now
Aint nobody perfect
But I treat you right baby girl because you deserve it
And girl you worth it
So every time you feel alone
Just play this song
Baby girl and I'll be coming home
My love is strongI'm never gonna let you go
I need you in my life girl

I need you by my side girl
I love you with my heart and soul
I need you by my side girl
I need you in my life girlI'm never gonna let you go
I need you in my life girl
I need you by my side girl
I love you with my heart and soul
I need you by my side girl
I need you in my life girl
