If Money's Your Life

Capdown

Choose your numbers on a friday night,
Gameshow appearance could change your life,
Happiness is here you need look no further,
If money's your life then don't look twice,
Cos u might see far into your same old future.Try your luck
I don't want luck,
Why should it be luck?
Cos they don't give a fuck.Hello ladies and gentlemen and welcome to superficial happiness,
I'm your host false hopes and we're here to keep your dreams alive and
u all
in line,
So if u all keep thinking of nothing but yourself,
Then we can continue without futher ado.Don't spend your life dreamin of freedom,
We hold the key and we've got our reasons,
Open your eyes change ain't your fucking enemy,
If money's your life then don't look twice,
You might see far into your same old future.
