# The Right Stuff

## Eugene Mirman

You don't know me, but I see you
You got your spotlight, I got my rear-view
I've seen it all before
I keep coming back for more
You got your finger on the trigger
You got my heart hooked, line, and sinker
It happens every time
You keep messing with my mind
'Cause it's good for you
Is it good for me?
Yeah, good for everybody
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon
And everybody wants some, wants some
You got your hardcore, x-rated
You got your dance floor, it's complicated
I've seen it all before
I keep coming back for more
'Cause it's good for you
Is it good for me?
Yeah, good for everybody
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon
And everybody wants some, wants some
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon
And I'm not gonna give up, give up, give up
Miracles and fairy tales
The devil in the small details
I need you now more than before
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon
Everybody wants some, wants some
Wants some, wants some
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon
And everybody wants some, wants some
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon

And I'm not gonna give up, give up
I know you got the right stuff, the right stuff
You're loaded like a weapon, a weapon
And everybody wants some, wants some, wants some
