

# Show Me the Way, O Lord

**Jandek**

Would you show me the way, O Lord  
    Show me the way  
    I got an ace to tell the time  
    I got my face all red with wine  
    I got my eyes above all men  
    I don't even listen to them  
Would you show me the way, O Lord  
    Show me the way  
    I'm walking on a planet  
    I take everything for granted  
    The stars are falling  
    Emptiness, and I am calling  
    For your caress  
Would you show me the way, O Lord  
    Show me the way
