

I Want You

Cassie Steele

I want you baby every single drop
I need you for my own and I won't stop
Till your mine cuz I don't share what I like
And when you touch me, it feel so damn nice
Your attention is like heroin
When you give into it I could shake a bitch
Cuz you are mine and I would sacrifice
Everything to shoot me up with you tonight
Everything to shoot me up with you tonight
[Bridge]I want you baby every single way
Your love is like something I've never tasted
Hold me close and I get excited
You are mine and no one else gets to bite it
I want you
[Chorus]So bad I scream at night
Your face kicking up insane inside
I kinda like what you're making me do and
Never seen my body move the way it's moving
So bad baby I can't breath
My lungs fill up when you're touching me
I kinda like what you're making me feel and
I want you, I want you
I want you
I need you baby I just wanna please

Just say the word and I'll be on my knees
I'll play a role give you ultimate control
for your love I'd sell the devil my soul
I have to have you or my minds breaking loose
Paranoia 'round my neck like a noose
You are mine and I would cross every line
To get your body next to mine for life
To get your body next to mine for life
[Bridge]I want you baby every single way
Your love is like something I've never tasted
Hold me close and I get excited
You are mine and no one else gets to bite it
I want you
[Chorus]So bad I scream at night

Your face kicking up insane inside
I kinda like what you're making me do and
Never seen my body move the way it's moving
So bad baby I can't breath
My lungs fill up when you're touching me
I kinda like what you're making me feel and
I want you, I want you
I want you
I walked by and I had to have you
[Chorus x2]
