

# Like We Did [Windows Down]

## The Maine

Tell me how to feel like we did...

Tell me how to feel  
like we did when we were young.  
You would take the wheel  
Oh yeah, we were on the run.  
And I remember nights  
We would sing till we saw the sun.  
Oh, just tell me how to feel  
like we did when we were young.

Yeah, you were dancing to your favorite song.  
And all my friends,  
Yeah, they were singing along.  
We got down, We got high,  
And the world it felt so right.  
So lets run free and carry on,  
Like we did when we were young.

We turn the music loud  
When we drive right through the town.  
Oh, we roll the windows down  
So the cops won't come around.  
T-t-t-take me to the time  
things were fine,  
They're so broken now.  
Yeah, but always keep in mind  
things are find and we'll figure it out.

Alright!

Tell me how to feel  
like we did when we were young.  
Oh, tell me how to feel  
like we did when we were young.  
Young, young,  
So young, oh oh...  
2,3,4!

Yeah, you were dancing to your favorite song.

And all my friends,  
Yeah, they were singing along.  
We got down, We got high,  
And the world it felt so right.  
So lets run free and carry on,  
Like we did when we were young.  
Like we did when we were young.  
Oh, so young.  
Like we did when we were young.
