

# Curse This City

## Hockey

I'm gonna curse this city if it robs me  
Im gonna curse this city if it robs me one more time  
before it even knew me it forgot me  
I'm gonna curse this city if it robs me one more time  
yeah All around the world today  
Power is the measure oh no  
Power is the only drug they don't want you to remember oh no  
All around the world power gets no pressure oh no  
Power is the only drug you never got no lectures on  
And hope showed up one day  
Then all the people say  
The time, the time has come  
Alright let's give it a name and oh  
Listen all my friends  
Who's gospel is who's pain  
From the Hudson to the Rhine  
Every place every time  
I'm gonna curse this city if it robs me  
Im gonna curse this city if it robs me one more time  
before it even knew me it forgot me  
I'm gonna curse this city if it robs me one more time  
Yeah all around the world today  
Power is the measure oh no  
Power is the only drug they don't want you to remember oh no  
If you really want to rise get your work done on someone else's time  
In the prize ring of the world, it's all about the millionaire gods  
And hope showed up one day  
But don't name it leave it blank  
Or sorrow gets the same name  
And everyone makes everyone else pay  
and oh, isn't this nice  
I'll never see you in this life  
From the Hudson to the Rhine  
Every place every time  
A million reasons one high or really?  
Strait Machiavellian fears all around me  
  
A national treasure passed out in the ally  
Manhattan sky bridge all covered in rust

CEO post madonna don't know what's up  
He went blind to the world and mistook me for a G man.  
Who envies who?  
Who gave status to who?  
What's the story with heaven now meet me at the pantheon  
I checked my grandmothers ring I should have carried it on  
Sent my bags to eden still at the gate  
In the prize ring of the world look for me  
I'll be the one who don't know  
how to cheat  
But I know  
How to do this kind of thing  
Yes I do  
I'm gonna curse this city if it robs me one more time x 8  
I'm gonna love this city if it only helps me shine shine shine  
I'm gonna love this city if it only helps me shine shine shine  
I'm gonna love this city but please don't make me try try try so hard  
I'm gonna love this city if it only helps me shine shine shine  
Those other cities just tried me  
Told more than a few lies to me  
So I cursed them kindly and was long gone  
I'm gonna love this city  
if it only helps me shine shine shine  
I'm gonna love this city if  
it only helps me shine shine shine  
I'm gonna love this city but please don't make me try try try so hard/  
I'm gonna love this city  
if it only helps me shine shine shine  
Those other cities don't know me  
If you only knew how much they owed me  
I was the right person in the wrong place  
Good god almighty but  
This city wont take no brides  
It's got reasons if  
it's on your side  
I'm gonna love this city if it only only only  
helps me shine shine
