

# Flashed Junk Mind (Filous Remix)

## Milky Chance

When we were young souls  
On the junk-yard  
Now we are stunned minds  
Full of junk-goods  
But I feel your heartbeat  
Just like mine  
I feel your heartbeat  
All the time And we were bound to the citylife  
Flashlights when we're falling into the night  
Focused on what you feel  
Just when you were calling her love that day  
And we were bound to the citylife  
Flashlights when we're falling into the night  
Focused on what you feel  
Just when you were calling her love that day When we were young souls  
On the junk-yard  
Now we are stunned minds  
Full of junk-goods  
But I feel your heartbeat  
Just like mine  
I feel your heartbeat  
All the time And we were bound to the citylife  
Flashlights when we're falling into the night  
Focused on what you feel  
Just when you were calling her love that day  
And we were bound to the citylife  
Flashlights when we're falling into the night  
Focused on what you feel  
Just when you were calling her love that day
