

When a Thank You Card Is Not Enough

The Young and the Useless

Questions, I ask, answers I never find
My heart is open, work in me
When I fall down, you pick me up,
your love never ends,
Overflow my cup,
I'll never understand why you still care
Room for improvement inside my heart
I look back at times when I've turned my back on everything that I stand for
And you still take me in arms wide open with love and forgiveness
and I know I'm your son, Thank you
