

Save a Little Love

Don Diablo

Girl in the sea, it's wearing you down
You got so much to do, but I just want you around
Darlin' I see, the look in your eyes
You're too tired for love, after working all night
Work all week (work all week)
And chase money (chase money)
Can't you see? (can't you see?)
Real love is for free
Real love is for free
C'mon, 1, 2, 3
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
Await and see
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
C'mon, 1, 2, 3
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
Await and see
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
If all that you want is some appreciation
You got more than enough, you ain't the dollars you're makin'
If loving can be some kind of payment
We get more than we need, we're billionaire's, baby
Work all week (work all week)
And chase money (chase money)
Can't you see? (can't you see?)
Real love is for free
Real love is for free
C'mon, 1, 2, 3
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
Await and see
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
C'mon, 1, 2, 3
Won't you save a little love for me?

If you save a little love for me
I can show you how love can be
Await and see
Won't you save a little love for me?
If you save a little love for me
I can show you how love can be
