No Time To Lose

Rainbow

The other family get no sleep
Somewhere down the love got to take and keep
Think about the future, nothing in the past
God, things never lastCome on, come on, come on
Take your love
Get down, get down, get down
Down the roadIt ain't no lie
You're hurting
And you don't know why
No time to lose
We get no time to lose
No time to lose
No time to loseEver had the feeling something's going wrong
Hanging round a lover where you don't belong
Waiting for a reason, lookin' for a clue
But you know what you gotta doCome on, come on, come on
Take your love
Get down, get down, get down
Down the roadIt ain't no lie
You're hurting
And you don't know why
You got no time to lose
We get no time to lose
No time to lose
No time to loseYour brothers at the bar
There girls in the car
Your sister's on the telephone
that ain't low
Your mother's going blue
Your dad is going grey
There's nothing here for you to stayCome on, come on, come on
Take your love
Get down, get down, get down
Get down that road, get down youIt ain't no lie
You're hurting
And you don't know why
No time to lose
No time to lose
You gonna have to choose

You go and shake the blues
Oh oh you got no time to lose
You got to choose
No time to lose
