

Push, Push

Cinderella

I'm gettin' hot
I've got to give a shot
She wants it all
And that's a lot I'm gettin' ready
Love's lookin' steady
It's gettin' sticky
I thought she might miss me
She looked at me and said I need a little, push push
Come and give a little, push push
If ya take a little, push push
Then you'll get a little, push push She's lookin' fine
Flashin' like a neon sign
She thinks it's love
I said that comes with time I'm gettin' ready
Love's lookin' steady
It's gettin' sticky
I thought she might miss me
She looked at me and said I need a little, push push
Come and give a little, push push
If ya take a little, push push
Then you'll get a little, push push
Whoa yeah, push on I'm gettin' ready
The love's lookin' steady
It's gettin' sticky
I thought she might miss me
She looked at me and said I need a little, push push
Come and give a little, push push
If ya take a little, push push
Then you'll get a little, push push Woo, push push
Mmm, keep pushin' me, push push
Push on, push push
Ooo, yeah yeah, push push
