

That's What a Song Will Do

Jon Wolfe

Me and my baby
We were parked down a country road
 Radio was playing
 She started singing
 Stuck on you
 She leaned over
 Put her pretty little head on my shoulder
 We forgot all about the fight we had
 Started all overThat's what a song will do
 It Will Turn you around and speak right to you
 Make you laugh and cry and fill you heart up too
 That's what a song will do
I was sitting in the kitchen down in mama's house
 Having one of those days
 Feeling like nothing gonna go my way
 She was humming along to a feel-good song
 It eased my mind
 All of a sudden
There wasn't nothing wrongThat's what a song will do
 It Will Turn you around and speak right to you
 Make you laugh and cry and fill you heart up too
 That's what a song will doLast Sunday I was sitting
 In the front row pew
 Minister started playing
 started singing
 Oh, Rugged Cross
 Oh I heard it like I have never heard it before
I bowed my head raised my hands and praised the lord
 Yes I did
 That's what a song will do
 It Will Turn you around and speak right to you
 Make you laugh and cry and fill you heart up too
 That's what a song
 That's what a song
 That's what a song will do
