Killing Time

Necrodeath

Anguish and fury tears and blood
States dissolution physical decay
Determination with fear
Final war is near
"Ciner gloria sera venit" - Armageddon[Chorus:]
Open your eyes until you die
Open your eyes until you die- Killing time!Gods of war are ready
Persecution is wasted
Breakin' the silence
Danger lurking everywhere[Chorus:]
Open your eyes until you die
Open your eyes until you die- Killing time!Out of the black depths,
Cry to you oh my lord
Cry to you oh my lord[Chorus:]
Open your eyes until you die
Open your eyes until you die
Open your eyes until you die
Open your eyes until you die
