

Make Your Peace

INXS

There are rivers running just for you and me
In the darkest hours choices made to be
I choose to pull my punches
Don't you test my conscience
You'll see, you'll see Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for Got a way of getting what I want to see
When you know I'm winning you'll get over me
All the trash you're thinking
Don't you feel it sinking
You'll see, you'll see Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for All this bitter fighting makes no sense to me
We're only talking circles, losin' sympathy
No time like the future
Make signs 'cause I need ya
You'll see, you'll see There are rivers running just for you and me
In the darkest hours choices made to be
I choose to pull my punches
Don't you test my conscience
You'll see, you'll see Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for Cut your teeth and make your peace
Is what you ask for
Cut your teeth and make your peace
Is what you ask for Cut your teeth and make your peace
Is what you ask for

Cut your teeth and make your peace
Is what you ask for
