

# Brother John

## Thousand Foot Krutch

I saw this child who never smiled  
I told him that's no way to live your life  
I saw him kneel down on his knees  
As he said please, please, please  
It's as if I could see inside his mind  
And it reminded me of mine  
And it became clear that he belonged here  
And he promised me he'd try  
If only you could have been there  
With me and my brother John  
We tried so hard not to carry on  
But it was so obvious to everyone who was around  
Let me know if you see him around  
Let me know if you see him downtown  
I know there is something better than this  
I know there is, there's gotta be  
I know there is something better than this  
I know there is  
I know there  
Is a place where I can just hang out  
With the friends who I hang out  
We can have some laughs smile and drink and have a good time  
With all the people we get who I could never forget  
La la, la la la la la  
Lotta things that I would like to say  
To you in your troubled state  
But it's so hard when you're so good at keeping it to yourself  
And wait till the sun comes up in the morning  
If you come back we'll find a place for you  
I saw this child who never smiled  
I told him that's no way to live your life  
I saw him kneel down on his knees  
As he said please, please, please  
It's as if I could see inside his mind  
And it reminded me of mine  
And it became clear that he belonged here  
And he promised me he'd try  
If only you could have been there  
With me and my brother John  
We tried so hard not to carry on  
But it was so obvious to everyone who was around  
Let me know if you see him around  
Let me know if you see him downtown  
I know there is something better than this  
I know there is, there's gotta be  
I know there is something better than this

I know there is I know there  
Is a place where I can just hang out  
With the friends who I hang out  
We can have some laughs smile and drink and have a good time  
With all the people we get who I could never forget  
La la, la la la la la Lotta things that I would like to say  
To you in your troubled state  
But it's so hard when you're so good at keeping it to yourself  
And wait till the sun comes up in the morning  
If you come back we'll find a place for you
