

More (feat. Elena Pitoulis)

Jan Blomqvist

don't wanna get old
don't wanna die young
I'm buyin' their cold
void satisfaction
our poison each day
my reason to stay
new feelings in store
alright gimme more
alright gimme more
we could have been the ones
who cut the screen at once
we should have seen the ones
who turned machines at once
we could have been the ones
who left the scene at once
we could have been the ones
who took the streets at once
we could have been the ones
who left the scene at once
never gets old
my sad addiction
letters now bold
the saddest fiction
don't wanna buy gold
don't wanna buy love
cuz now it is all sold
theres never enough
its never enough
we could have been the ones
who cut the screen at once
we should have seen the ones
who turned machines at once
we could have been the ones
who left the scene at once
we could have been the ones
who took the streets at once
