What's In You?

Tom Cochrane

Mass communication now
Cleans across the nation, it's on
Mass ill iteration God
We need a little concentration
It's onWhat's in you, what's in you
What's in you, what's in your head?All my friends going to get together
Looks like sunny weather, it's on
Everybody wants to hear rock and roll
God have mercy on their souls, it's onWhat's in you, what's in you
What's in you, what's in your head?Door bell rings, sweet young things
"School newspaper" how do you write a song?
Slip out the back way into the street
I've got to find a way to beat the heat
It's on, heats onWhat's in you, what's in you
What's in you, what's in your headOoooh, good looking, what's inside your head
