

# Lincoln

## Dan Andriano

I am both Zapruder and Kennedy  
Witnessing the shots she fired into me  
Played out in slow motion under scrutiny  
Frame by frame, I make my own conspiracy

On a grassy knoll I think I'm wondering  
How Lincoln figures into what's happening  
And who and what it is that pulls her puppet strings  
Suspect myself, I start a line of questioning

She didn't act alone  
Her cover has been blown  
She didn't act alone

She didn't act alone  
The footage never shown  
She didn't act alone

I appreciate all of your concern  
Though I may be dead  
You've got powder burns  
Powder burns...  
Powder burns...

Jacqueline is soon to stop her whispering  
To my bleeding head while the gun's still smoking  
I'm an Oswald, I film what our fates will bring  
Camera crew, broken heart, Ruby ring

She didn't act alone  
The footage never shown  
She didn't act alone

She didn't act alone  
Her cover has been blown  
She didn't act alone

Powder burns...

Powder burns...

She didn't act alone  
Her cover has been blown  
She didn't act alone

She didn't act alone  
The footage never shown  
She didn't act alone
