

New Thing (Live Unplugged in London) [Bonus]

Enuff Z'nuff

Information came about her
Suddenly I live without her
 Turn my stereo up louder
I don't want to hear about her
Took myself a small vacation
 Kind of an investigation
Checking out a new sensation
 Finding much invigoration
Hand is on the buzzer and I'm walking through the door
 Get high on a new thing
 Get high on a new thing
 Everybody wants to find it
Just they're all so narrowminded
See a hill they've got to climb it
 May be pots of gold behind it
 Worry worry is your answer
If you like your wrinkles faster
Nursing old things makes them last
 The way we did it in the past
 Everybody telling you
 You ain't got no respect
 Get High on a new thing
 Get high on a new thing
 Suicide don't make it
Cause you're lonely in the end
 Get high on a new thing
 Get high on a new thing
