Millennium Sun

Angra

An eagle breaks the silence
And overflies the field
My eyes will try to follow
Till it vanishes awayLike candles in the darkness
We fight against the wind
Devotion to you idols
Soon will overthrow the kingOut of order
Taming borders
Tearing down the fences
On and on and after all
The century has gone
Racism jumble
Turbulence
My eyes believe we have gone to the endOrdinary Earth
Sailing throght the spacePopulation alienation
Losing all affection
Calling on to heaven's hope
To watch for my protection
Out of luck
Potential stuck
Remote controlled
By the T.V. againCarries human souls
Lead us to the journey of our fateSo come millennium sun
Won't you show us the way
Future's begun
So words from my mouth come
Whispering for you returnPictures a sunset on the lake
Mirrors of crystal your portrait
Walking on this field while I waitSo come millennium sun
Won't you us the way
Future's begun
Some words from my mouth come
Whispering for your return
Show us the future's began
Burning millennium sun
