Lick

Ausgang

I lose all control when you grab ahold
And you do your trick, I love it when you lick, lick
You've got lock and key, every part of me
Know what makes me tick, I love it when you lick, lickI put my heels on for ya baby
The ones that wrap all around my legs
Your every touch excites me
And dammit I ain't too proud to begAnd even when you're not around me
The tinglin' just won't go away
Don't make my body wait no longer
Because this pussy cat's ready to play, play, play, playI lose all control when you grab ahold
And you do your trick, I love it when you lick, lick
You've got lock and key, every part of me
Know what makes me tick, I love it when you lick, lickIt feels so good goin' crazy
My eyes hold back inside my head
Explore mine and want some pleasure
Hold on tight, hope you ain't scaredI promise I'll return the favor
I'll do that trick you can't resist
Two rights don't make a wrong
Makin' love till the break of dawn
Emotions all up in a twist, twist, twist, twist, twistI lose all control when you grab ahold
And you do your trick, I love it when you lick, lick
You've got lock and key, every part of me
Know what makes me tick, I love it when you lick, lickI put my heels on for ya baby
The ones that wrap all around my legs
Your every touch just excites me
And dammit I ain't too proud to begAnd even when your not around me
The tinglin', tinglin' won't go away, no no
Don't make my body wait no longer
Because this pussy cat's ready to play, play, play, play, playI lose all control when you grab ahold
And you do your trick, I love it when you lick, lick
You've got lock and key, every part of me
Know what makes me tick, I love it when you lick
