

# Someday Somehow

## The Beu Sisters

Come back somehow  
Give me another try  
(I really didn't think so)  
I will be satisfied  
Back someday  
You will be satisfied  
(I really didn't think so)  
There is know need to lie  
Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground  
I know someday, she'll be back my way  
I should have warned her of the things that jealous people might say  
I loved you and you loved me  
I turn around and you were gone and that just came out the blue  
When I close my eyes all I see is your smile  
(Dem talkin' rumors 'bout me lot, dem talking rumors 'bout you lot)  
Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground  
No sunshine since you went away  
If I call you up would you have something to say  
Now I know that this love thing was true  
There should be no doubt that all I ever wanted was you  
When I close my eyes all I see is your smile?  
(Dem talkin' rumors 'bout me lot, dem talking rumors 'bout you lot)  
Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground  
When I close my eyes all I see is your smile  
They're talking rumors, rumors about me  
They only wanna mess up my life  
Hey ho, here comes the Snow  
You think you did a win but you never did a know  
Yes it's I, I just you and I  
You think you did a win but tonight you gonna die

Bare with me, watch how it's going down  
You know it's Snow man when you hear it from a distant sound  
Jealous enemies try to put us down  
You gotta get back up and reach this higher ground  
Hey ho here comes the Snow  
You think you did a win but you never did a know  
Yes it's I, I just you and I  
You think you did a win but tonight you gonna die  
They're talking rumors, rumors about me  
They only wanna mess up my life
