All Over You

Aquanote

All over you, all over you
You've got me all over you
What you gonna do 'bout it ?It was the way you walked by
You know that look in your eye
Was that would make me loose my coolNow I had to have you my way
I don't care what people might say
Somebody's got to play the foolYou know I can't deny
The toxic lullaby
You used to whisper in my earYou know your sweet temptation
Waits you in fascination
And now I've got to have you here
(What you gonna do?)You've got me all over you
You'll know
You've got me all over you
I'm all over youI'm all over you
You've got me all over youOh, come for me
You got me all over
You got me all over youYou know just where to touch me
Inside this feeling, rush me
Let's not pretend there is no pastSlowly my hands, they retrace
Your eye, your lips, your face
Baby, let's make this feeling lastWhat you gonna do?
You got me all over you
You'll know
You got me all over youLying down for you
(Aw, you)
Thought I was over you
(Aw, you, what you gonna do about it?)You got me yeah, yeah, all over you
(Aw, you, what you gonna do about it?)
Oh, all over you
(Aw, you, what you gonna do about it?)What you gonna do about it?
You got me all over, all over youAw, you
Oh, you got me
Aw, youOne time baby temperatures rising
(Aw, you)
Oh the heat is on for you babyThis feeling kind of okay
(Aw, you)
This is my chance
You got me all over you
