Baby, It's Fact

Hellogoodbye

Just in case they're wondering
They've got us pinned terribly
They don't believe our love is real
'Cause they don't know how real love feels
You should know, it's true, just now the part about my
Love for you and how my heart's about to
Burst into a thousand pieces so it must be true
And they'll believe us too soon
Baby, it's a fact our love is true
The way black is black and blue is just blue
My love is true, it's a matter of fact
Oh, and you love me too, it's as simple as that
Baby, our love is true
They may say some awful things
But there's no point in listening
Your words are the only words
That I believe in afterwards
You should know, it's true, just now the part about my
Love for you and how my heart's about to
Burst into a thousand pieces so it must be true
And they'll believe us too soon
Baby, it's a fact our love is true
The way black is black and blue is just blue
My love is true, it's a matter of fact
Oh, and you love me too, it's as simple as that
Baby, our love is true, it's true, it's true, it's true
Baby, it's a fact our love is true
The way black is black and blue is just blue
My love is true, it's a matter of fact
Oh, and you love me too, it's as simple as that
Baby, it's a fact our love is true
The way black is black and blue is just blue
My love is true, it's a matter of fact
Oh, and you love me too, it's as simple as that
Baby, it's a fact our love is true
Baby, it's a fact our love is true
Baby, it's a fact our love is true
Baby, it's a fact
Baby, it's a fact our love

Our love is true
