

Run

Kassandra

Everything you didn't say is cool with me
You're gonna see, we'll never be
Everytime you wanted me, a multi fail
But now you say you'll exclude me Never planned on running far
Now I'm searching where you are
I'm gonna get you on the floor
Like before Why you have to run so far
What you say is just bizarre
Doing it for her on my expense
Telling me for her you take defence
Baby don't be scared of me
For this game has got no winner
Love me while my head is spinning
Telling me you can't is killing Just a little bit of dirt is cool with me
You've got to se, that it works for me
Everything was a mistake, you tend to say
You look at me, you change your face You don't have to rescue me
This is where I'm supposed to be
With you lying next to me
Yeah me Why you have to run so far
What you say is just bizarre
Doing it for her on my expense
Telling me for her you take defence
Baby don't be scared of me
For this game has got no winner
Love me while my head is spinning
Telling me you can't is killing Love me while my head is spinning
Love me while my head is spinning Love me while my head is spinning
Love me while my head is spinning
Love me while my head is spinning
Love me while my head is spinning
Head is spinning... Ah Why you have to run so far
What you say is just bizarre
Doing it for her on my expense
Telling me for her you take defence
Baby don't be scared of me
For this game has got no winner
Love me while my head is spinning
Telling me you can't is killing
