

Real (feat. LeMarquis)

Years & Years

I broke my bones
Playing games with you
The type of fun
It makes me blue Oh, I
I think I'm into you
How much do you want it too
What are you prepared to do
I think I'm gonna make it worse
I talk to you but It doesn't work
I touch you but it starts to hurt
What have I been doing wrong
Tell me what it is you want
Tell me what it is you want
Tell me what it is you Oh I think that I if have been enough for you
Would I be better. Would I be good?
And I'll do what you like if you'll stay the night
You tell me don't think you should You do it boy, well
Love, I won't let you go
Love, I won't let you go
Love, I won't let you go
Love, I won't let you go Oh it's enough to be better
If I could I itch all night
I itch for you
You're just my type
What's a boy to do. Oh, I
I think I'm into you
How much do you want it too
What are you prepared to do
I think I'm gonna make it worse
I talk to you but It doesn't work
I touch you but it starts to hurt
What have I been doing wrong
Tell me what it is you want
Tell me what it is you want
Tell me what it is you Oh I think that I if have been enough for you
Would I be better. Would I be good?
And I'll do what you like if you'll stay the night
You tell me don't think you should You do it boy, well
Love, I won't let you go

Love, I won't let you go
Love, I won't let you go
Love, I won't let you go Oh it's enough to be better
If I could Yeah I if had been enough for you
Would I be better. Would I be good?
And I'll do what you like if you'll stay the night
You tell me don't think you should
I think you should Oh Love, I won't let you go
Love, I won't let you go
Love, I won't let you go
Love, I won't let you go Oh it's enough to be better
If I could
