Thunderclap

Subp Yao

Through the thunderclap
I hear the sound
Like a cold wind calls my name
It's only the rain
Like a light,that does not flicker
I wanted the cold to make us better
I carried words upon my shoulders
And I will never let you down
I will never let you down
So hold
(Hold Hold Hold)
Hold a light back to my soul
(Hold Hold Hold)
I'm just a lonely boy
With thoughts of growing old
And call
(Hold Hold Hold)
Call the sunshine to my soul
(Hold Hold Hold)
I'm just an empty boy
Who's souls growing cold
So bring your love light to my door
In another life
I lived before
I broke so many things
With these two clumsy hands
But now I'm steady as a rock
And hold your hand in mine
(Hold Hold Hold)

Hold a light back to my soul
(Hold Hold Hold)
I'm just a lonely boy
With thoughts of growing old
And Call
(Hold Hold Hold)
Call the sunshine to my soul
(Hold Hold Hold)
I'm just and empty boy

Who's souls growing cold
So bring your love light to my door
I will never let you down
I will never let you down
I will never let you down
I will never let you down
(Hold Hold Hold)
Call
(Hold Hold Hold)
Call the sunshine to my soul
(Hold Hold Hold)
I'm just an empty boy
An empty boy
Call
(Hold Hold Hold)
Call the life back to my soul
I'm just a lonely boy
With thoughts of growing old
So bring your love light to my door
Let me stumble to your shore
Bring your love light to my door
